

Hurricane Creek Trail to Max Patch on the Appalachian

Notice: Above all, please only attempt this trail with other experienced and trusted partners. This is a VERY difficult trail and we DO NOT recommend anyone attempt this without experienced and trusted partners.

In preparation, be sure to safely set your tire pressure at 28 psi. in Clyde before you get to the trail. Bring drinks, lunch and some wood to have lunch and a fire on top of Max Patch.

Head west on 40, watching for the Harmon Den sign, slow down to 20 mph and ride the shoulder with flashers on and pull off at these coordinates: 35.79669, -82.95794.

Notice the sign 233 - you're on the correct trail!
