

Panther-town 5 waterfall hike.

Our hike will start at the Salt Rock Gap parking area at the end of Breedlove Road in Cashiers.

We stopped at the salt rock overlook and saw a stormy day of beauty.

From here we headed down the Wilderness Falls Trail to Wildcat Falls. Frolic town Trail to Frolic town Falls.

We then proceeded to cross Panther town Creek on our way to Granny Burrow Falls.

Then hit the Great Wall trail to the (you guessed it) the Great Wall.

We went along Panthertown Creek Trail, where intersected the Little Green Trial to Tranquility Point.

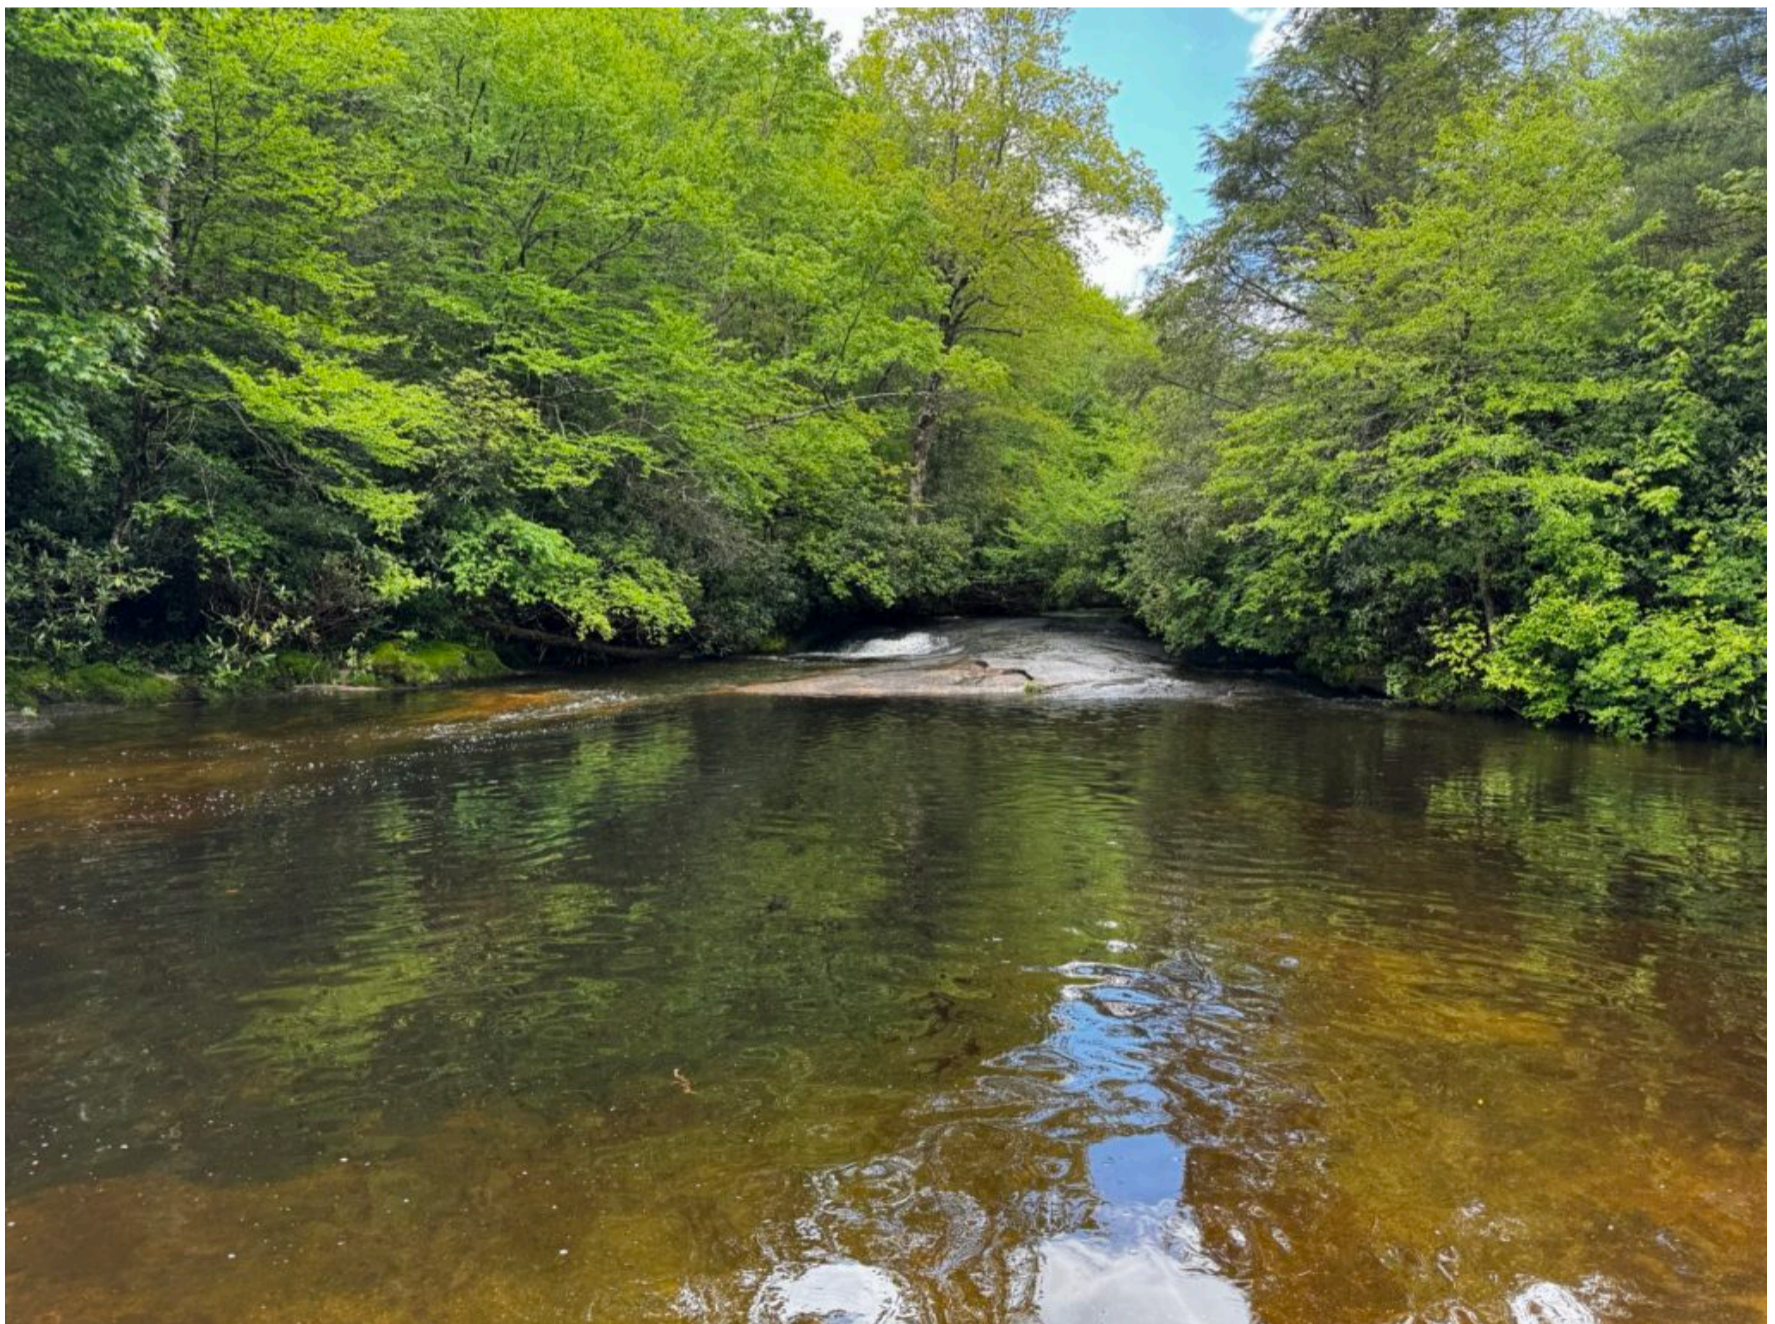

The rain was on us as we passed the campsite on the way.

We hightailed it out of there to circle around to the all too familiar, Schoolhouse Falls.

Past Sandbar Pool Beach back up to where we started.

On the final stretch back to our cars, we saw some wild flame, Azalea and all its bright, orange glory.

All in all, it was about 10 miles much of it in the rain all of it a very good Hike.
